Professional Summary

DevOps Engineer with 2+ years of hands-on experience in cloud infrastructure, automation, and CI/CD pipeline implementation. Skilled in AWS, Docker, Kubernetes, Jenkins, Git, and Terraform, with practical expertise in deploying and managing scalable cloud-native applications. Experienced in containerization, infrastructure automation, monitoring, and maintaining production-grade environments to improve system reliability, performance, and deployment efficiency.

Technical Skills

- **Cloud:** AWS (EC2, S3, IAM, ELB, EKS)
 - **Containers & Orchestration:** Docker, Kubernetes, Minikube, Helm
 - **CI/CD:** Jenkins, GitHub Actions
 - **Monitoring & Logging:** Grafana, Prometheus, Kubecost
 - **Version Control:** Git, SVN
 - **Artifact & Build:** Maven, Nexus, SonarQube
 - **Web Servers:** NGINX, Tomcat
 - **DNS:** Cloudflare
 - **OS & DB:** Linux, Windows, MySQL, PostgreSQL
 - **IaC:** Terraform (Basics)
-

Professional Experience

Cloud DevOps Engineer

DashRDP - Remote

Apr 2025 - Present

- Implementation of **NGINX Ingress Controller** with host-based routing, reducing AWS ELB count.
- Deploy **Minikube** on bare metal hosts to run internal applications, reducing EC2 dependency and cutting AWS cost.
- Configured **Kubecost** on EKS cluster to monitor and optimize Kubernetes resource usage and track cloud spending.
- Managed AWS infrastructure and configured **Cloudflare** DNS to expose services externally.
- Worked with **Git** for version control and collaboration, and implemented CI/CD pipelines using **GitHub Actions** for automated build and deployment processes.
- Oversaw all DevOps operations including deployments, cost analysis, and infrastructure optimization.

Associate DevOps Engineer

Trinity Mobility Pvt Ltd – Bangalore

Feb 2023 – Feb 2024

- Worked on **Bangalore Safe City Project** - NGCAD (New Generation Computer Aided Dispatch) platform.
 - Managed full DevOps lifecycle using Git, Jenkins, Maven, Nexus, Tomcat, Docker, Kubernetes, Apache, NGINX, and MySQL.
 - Resolved Jenkins job failures and managed application deployments across testing and POC environments using Jenkins.
 - Created and maintained Dockerfiles based on developer and application requirements for containerized deployments.
 - Configured and managed NGINX reverse proxy for application routing and traffic management.
 - Monitored applications using Grafana and Prometheus: controlled versioning via SVN/Git integrated with Jira.
-

Education

B.E. in Civil Engineering

Dayananda Sagar Academy of Technology and Management

CGPA: 7.64

Pre-University (PU) - Science

Maganur Basappa PU Science College, Davangere

Percentage: 88%

SSLC

Maganur Basappa High School, Davangere

Percentage: 91.02%

Certifications and Training

- Linux, AWS & DevOps certification – Besant technologies, Bangalore.
- DevOps Bootcamp – Git, Jenkins, Docker, Kubernetes.
